

# Chhabinath Sahoo

**Aspiring** Java Developer:  
Committed to **Learning**  
and **Passionate** About Coding

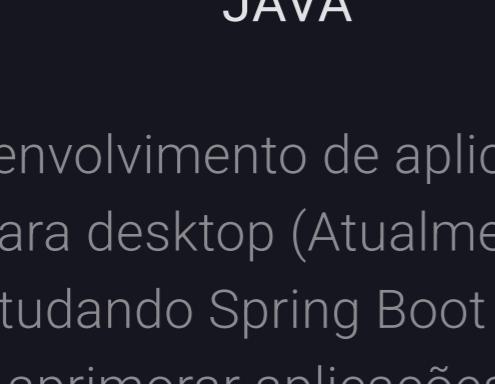

[Resume Here](#)

HOW CAN I HELP YOU?

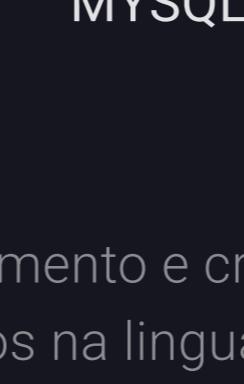

## Some of my Skills

### Programming

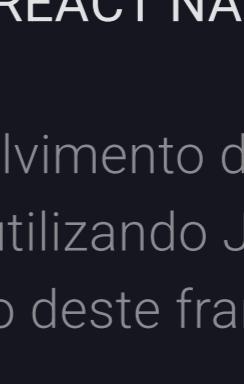

#### HTML/CSS

Desenvolvimento de sites completos e fieis aos mais variados designs propostos pelo cliente ou empresa.

#### JavaScript

Criação de funções mais avançadas em sites WEB com JavaScript Vanilla

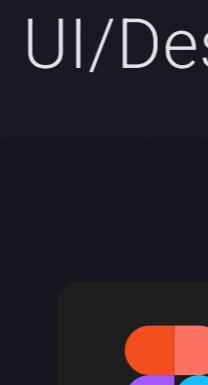

#### PHP

Criação de páginas interativas mais robustas com acesso a banco de dados, como paginas de cadastro, catálogos e banco de informações.

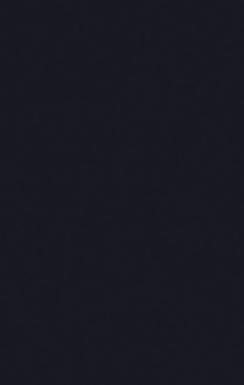

#### JAVA

Desenvolvimento de aplicações para desktop (Atualmente estudando Spring Boot para aprimorar aplicações).

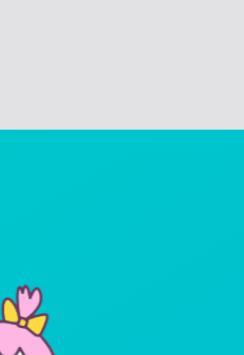

#### MySQL

Manuseamento e criação banco de dados na linguagem SQL.

#### REACT NATIVE

Desenvolvimento de aplicações mobiles utilizando JavaScript por meio deste framework.

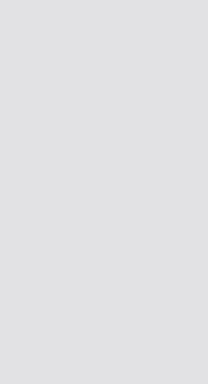

#### REACT.JS

Desenvolvimento de aplicações para desktop (Atualmente estudando Spring Boot para aprimorar aplicações).

#### NEXT.JS

Desenvolvimento de aplicações para desktop (Atualmente estudando Spring Boot para aprimorar aplicações).

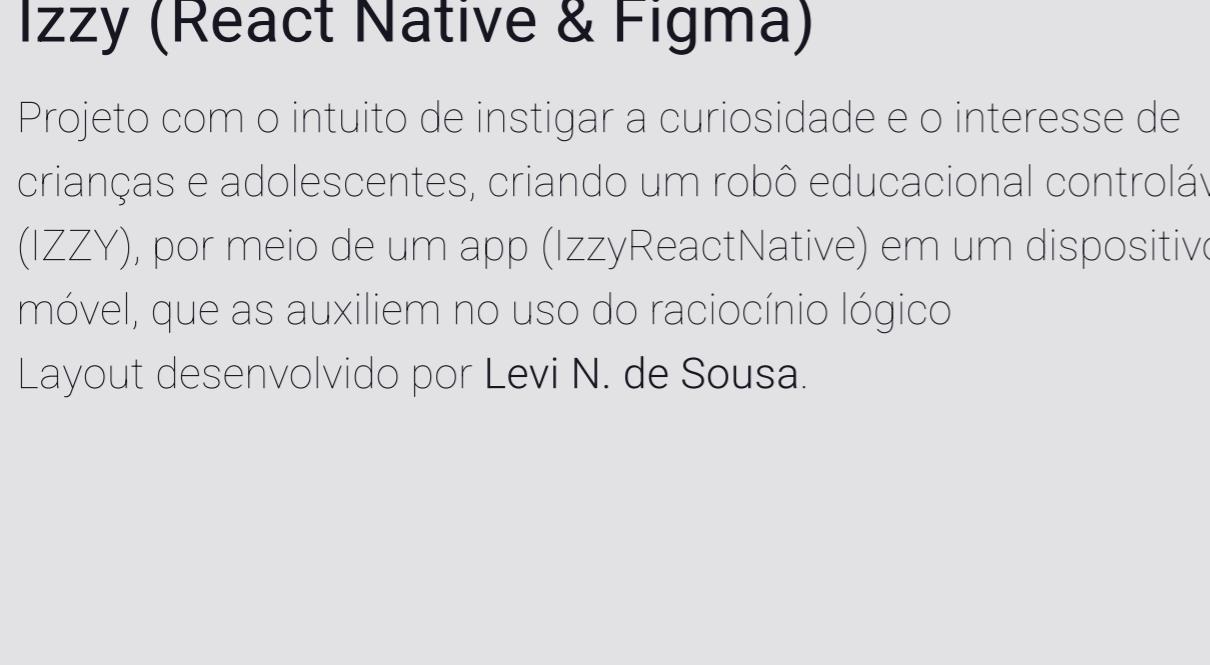

### UI/Design

Desenvolvimento de Layouts para aplicações para desktop, web, mobile e posts para instagram.

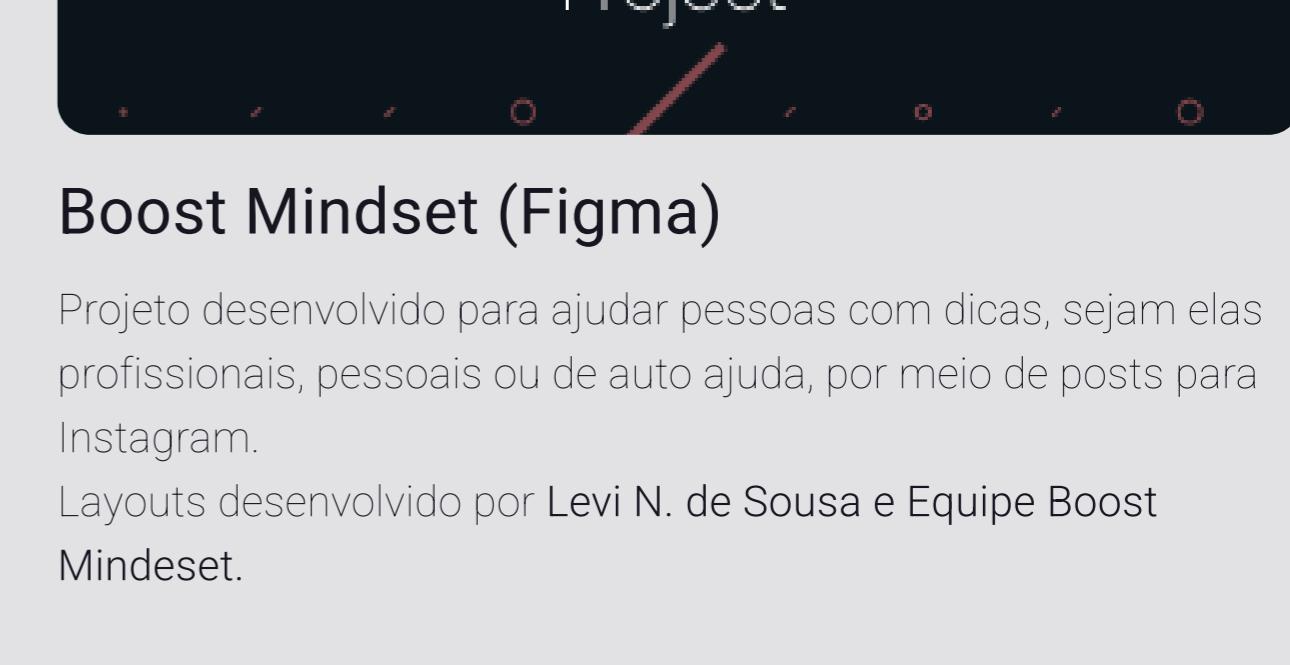

## PROJECTS

### Some projects developed by me

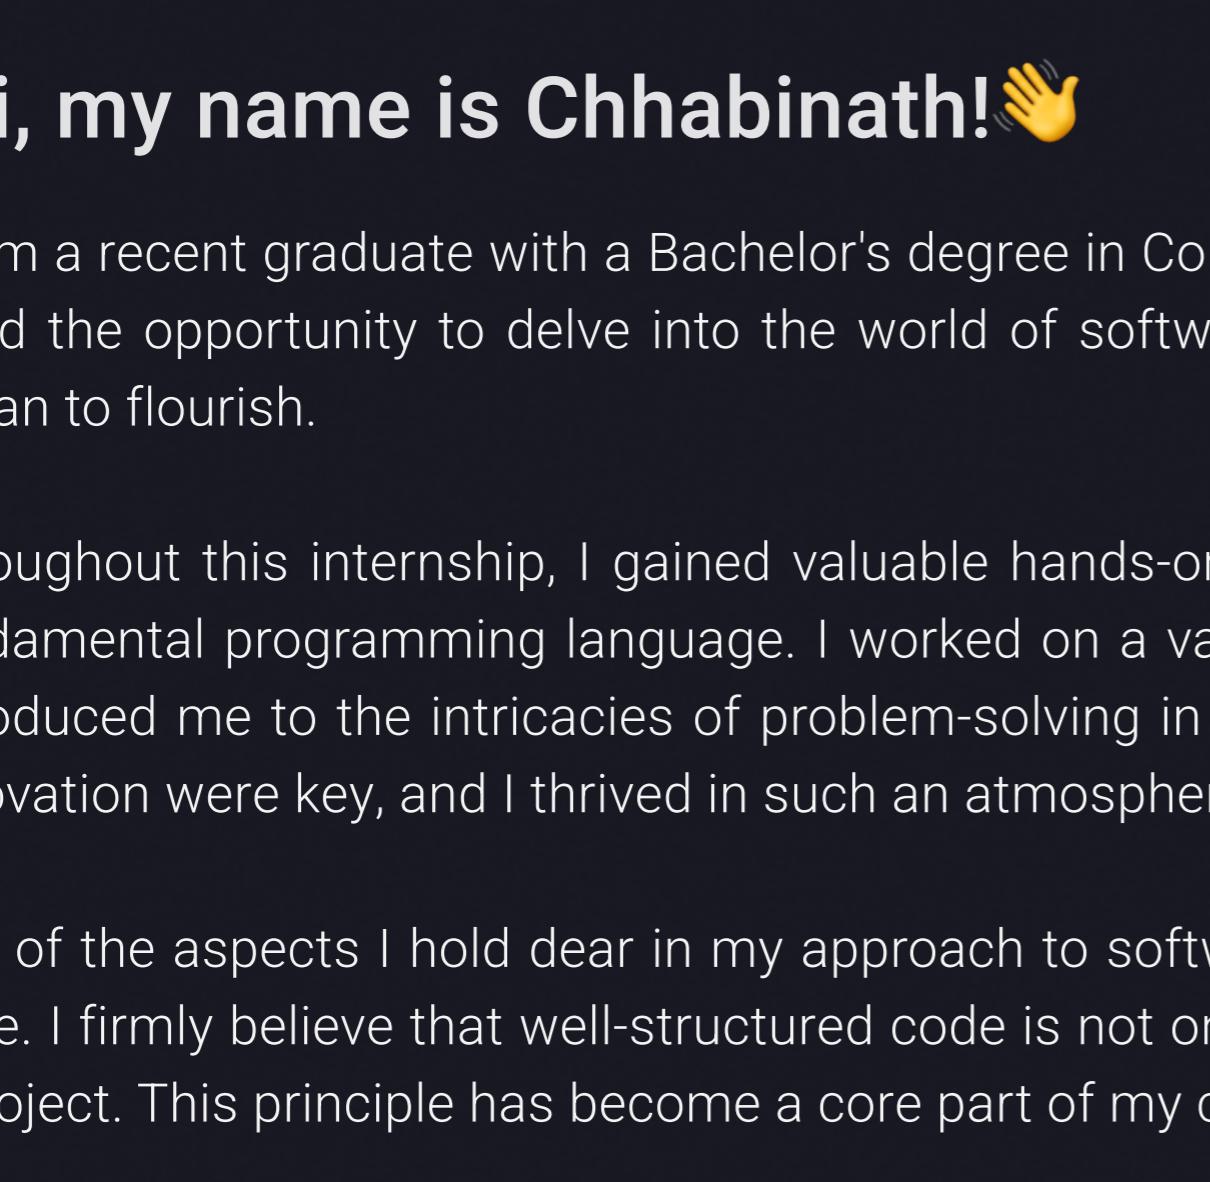

#### Happy (React.JS)

O projeto Happy, desenvolvido durante a Next Level Week, da Rocketseat. Ele tem como objetivo incentivar as crianças a visitarem os orfanatos, o que é lindo de ver a alegria das crianças. Layout desenvolvido por Tiago Luchtenberg.

#### Hotel Paraíso (HTML/CSS)

O "Hotel Paraíso", desenvolvido durante o primeiro ano do curso de informática. Criado para colocar em prática os conhecimentos adquiridos em aula durante a disciplina de HTML e CSS. Layout desenvolvido por Autor Desconhecido e modificado por mim.

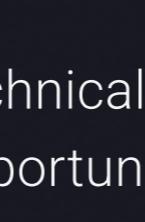

#### Izzy (React Native & Figma)

Projeto com o intuito de instigar a curiosidade e o interesse de crianças e adolescentes, criando um robô educacional controlável (IZZY), por meio de um app (IzzyReactNative) em um dispositivo móvel, que auxiliem no uso do raciocínio lógico. Layout desenvolvido por Levi N. de Sousa.

#### Boost Mindset (Figma)

Projeto desenvolvido para ajudar pessoas com dicas, sejam elas profissionais, pessoais ou de auto ajuda, por meio de posts para Instagram. Layouts desenvolvidos por Levi N. de Sousa e Equipe Boost Mindset.

## ABOUT ME

### Hi, my name is Chhabinath!👋

I am a recent graduate with a Bachelor's degree in Computer Science and a genuine passion for coding. During my academic journey, I had the opportunity to delve into the world of software development, and it was during a pivotal 3-month internship where I truly began to flourish.

Throughout this internship, I gained valuable hands-on experience in Core Java, allowing me to develop a strong foundation in this fundamental programming language. I worked on a variety of real-world projects that not only enhanced my technical skills but also introduced me to the intricacies of problem-solving in a professional setting. It was a dynamic environment where collaboration and innovation were key, and I thrived in such an atmosphere.

One of the aspects I hold dear in my approach to software development is my unwavering commitment to writing clean and efficient code. I firmly believe that well-structured code is not only easier to maintain but also contributes significantly to the overall success of a project. This principle has become a core part of my coding philosophy, and I am dedicated to upholding it in all my endeavors.

Learning is a lifelong journey for me, and I am deeply committed to continuous improvement. I see every coding challenge as an opportunity to grow and develop my skills further. This dedication to self-improvement has led me to explore innovative solutions to complex problems, often pushing the boundaries of what I previously thought was possible.

My goal is to leverage my fresh perspective and growing technical prowess to contribute meaningfully to a dynamic and forward-thinking team. I thrive on challenges and embrace them as opportunities to further cultivate my abilities. I believe that every challenge is a stepping stone to personal and professional growth, and I am excited to embark on this journey of development and innovation.

As I look to the future, I am filled with anticipation for the opportunities that lie ahead. I am confident that my passion for coding, dedication to clean code, and eagerness to learn will enable me to make a positive impact in the ever-evolving field of software development. I am open to collaboration and networking, as I believe that working together and sharing knowledge is a crucial aspect of our industry's growth.

At last, I invite you to join me on this exciting journey of growth and innovation. Together, we can explore the limitless possibilities of software development, tackle complex challenges, and create solutions that leave a lasting mark in our fast-paced technological landscape. Feel free to connect with me, and let's embark on this adventure together."
